Subject: RE: Comments on UIC draft permits for Dewey-Burdock

Greetings,

As a land owner and taxpayer in rural southwestern Custer County, I demand that you do not grant the permits requested for the Dewey-Burdock uranium mining project near Edgemont. Any laymen can see that, at best, this will pollute our already endangered source of drinking water.

What is the real purpose of this uranium mining anyway? The nuclear power industry isn't exactly booming, so what is the uranium needed for? Who is buying it? I suspect the answers will be as difficult to get as Trump's tax returns.

I know under this new administration, the most incompetent and corrupt in the history of the United States, the EPA now stands for Environmental Polluting Agency. But rest assured, we who depend on a safe supply of water in this area will not tolerate anyone polluting our water supply.

Sincerely,

Ex. 6 Personal Privacy (PP)
